## Exercise 6: Identify and Create the Layout

Here are the dimensions you need:

Left Side:
Image: 480 by 40
VideoPlayer: 480 by 412
TitleLabel : height 40, size 24
Label: height 20, size 11

Right Side:
TabBar: height 22
TileList: columnWidth 120, rowHeight 125, numColumns 3, numRows 3
ListItem: width 120
ThumbnailButton: width 114, height 85
TitleLabel: width 114, height 85

Use this line for the TileList in order for it to show in the preview:

```
<TileList id="videoList" data="{playlistTabs.selectedItem.videoDTOs}"
columnWidth="120" rowHeight="125" numColumns="3" numRows="3">
```
